# SEPTEMBER 2015

## MEETING MINUTES

The last meeting was on Friday, September 11th, 2015.

The meeting was called to order by Superintendent, Wade Mountz, on Friday, September 11th, 2015, at the Sand Creek Police Station, 4125 Center Park Drive (southeast of the intersection of Fountain and Academy), Colorado Springs, Colorado, at 7:10 PM. There were 31 people in attendance; one new visitor, Marty Kell — models HO-scale, working on second layout, diesel era.

The minutes for the August 2015 meeting were approved as written in *The Milepost*. Frank Pareso gave the Treasurer's report. There was no old business to be resolved.

Dusty Thompson gave an update on the upcoming division train show for October 17, 2015. Table sales are going well — at least 20 so far. There was a discussion about advertisements for the show, fliers, Internet ads, NMRA magazine, and placing signs around town. See the Insert Section for the flier on this show. The show is October 17th, 2015 with setup the day before at 6:30 PM.

Andy Buco gave information concerning the most recent TECO show. Light attendance — didn't have final numbers yet. There was discussion about setting dates for next year. Youth In Model Railroading and the Colorado Southern layout were not at the last show.

Words of thanks concerning the last home layout tours. Generally, people thought it was a good show this year.

Mike Maline gave updated and detailed information concerning the rail yard tour at Fort Carson coming up. An e-mail will be sent out to members with the information presented.

Jerry Drews talked about the next upcoming Youth In Model Railroading — see flier in the Inserts Section.

Charles Marchbanks reports that we have programs for our meetings for the rest of the year. Any additional programs will have to be in 2016.

James Patterson reports the website is up and running with some new updates.

John Emmot said he still needs volunteers with modules for setup at the upcoming swap meet show on October 17th. The layout will be a maximum of 32' and a minimum of 24'. John also discussed possibility of running at an upcoming shown in Woodland Park, Colorado.

Tonight's contest is *Scratch-Built Structure*. There are enough entries to have a valid contest — voting during the break.

Meeting break.

Raffle drawing was held.

Contest winners were awarded.

Ulrich Bernsmann gave a presentation on FREMO modules in Germany using Gauge 1 (1:32 scale), modeling from 1945 through the mid-1960's.

The meeting ended at 8:51 PM. The next meeting will be Friday, October 9th, 2015.

# UPCOMING EVENTS

This monthly column lists model railroad, and railroad, events in the Pikes Peak region, the state of Colorado, and neighboring states. If you know of a railroad-related event that can be added to this listing, please e-mail them to the editor ([midnightriver@gmail.com](mailto:midnightriver@gmail.com)). Please note that dates and times sometimes change, so please check this column each month for the latest information. Starting this month, a “new” graphic will be added to those events that have been newly added from the previous month’s column. For more information on a particular event, click on the blue underlined text to jump out to the Internet for the relevant website (not all events have a link).

# SEPTEMBER 2015 CONTEST ENTRIES

September's contest was *Scratch-Built Structure*. The models that were entered are shown below.

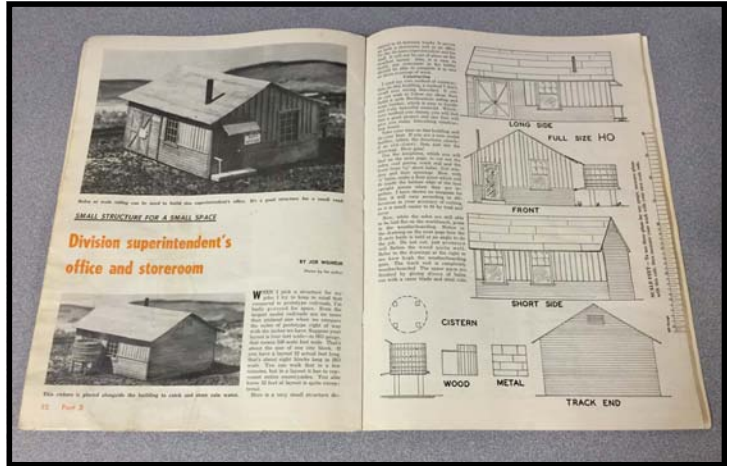

Robert Allen won 1st-place with this scratch-built, HO-scale depot from the Santa Cruz, Garfield Park, & Capitola Electric Railway. The original *Vue de L'eau* depot existed from 1891-1925. Robert used a plan that was printed in the March-April 2007 issue of *The Narrow Gauge And Shortline Gazette*. Parts included: Grandt Line doors and windows; 1/32", 1/16", and 1/8" basswood scribed siding; various strip wood; Central Valley steps and ladders (split ladder for roof iron work); Master Creations French diamond shingles; Hobby Lobby jewelry findings (black nickel 2" headpin and Filigree bell cap for lightning rod); scrap from wife's scrap booking fancy corner trimmer for corbels; Cracker Barrel fancy toothpicks; several different colors of paint (Floquil depot buff, Folk Art brown, Rattle Can brown, Folk Art true burgundy, Testors green and black, and Watco dark walnut stain); thread; and card stock.

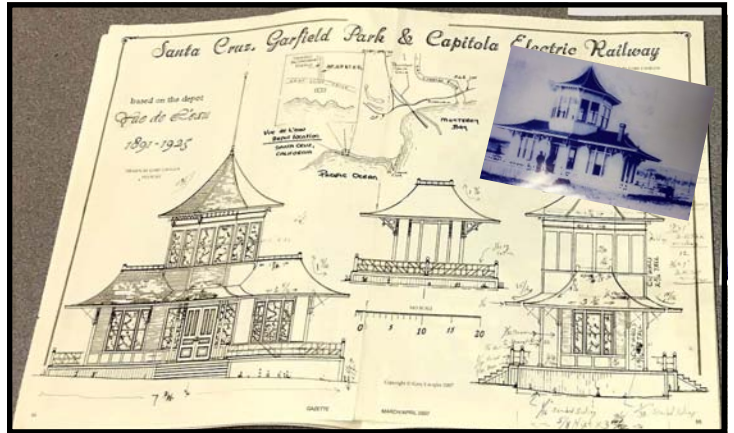

Dennis Snyder won 2nd-place with this HO-scale, scratch-built yard office. It includes scale bass wood and balsa. Interior lights are individual LEDs cut from LED "rope". Commercial castings were used for the furniture, light fixture, and equipment. Dennis reports that this is a nostalgic second build of this office. The first time he built this building, back in 1958, he used plain balsa sheeting scribed with a knife. Strip wood was cut from sheets to make moldings, window frames, and mullions. He has learned a lot since then. This second build was much easier and better with today's materials.

Wade Mountz won 3rd-place with this detailed, HO-scale, railroad, freight station kit.

Dennis Snyder had the 1950's era article from *Model Railroader* magazine that he used in building his model.

Robert Allen used plans from the March-April 2007 issue of *The Narrow Gauge And Shortline Gazette* magazine and a prototype photograph of the depot to make his model.

## CONTEST SCHEDULE

Contest entries are submitted and judged at each monthly meeting based on the schedule below. There must be at least three entries for there to be a contest to be judged.

- October ..... *Weathered Diesel Engine.*
- November ..... *Kit-Built M.O.W. Equipment.*
- December ..... No contest (Christmas party).

# MODULAR MUSINGS

By John Emmot, Chairman of Module Group

Time flies when you are visiting 12" to the foot rail yards. Once again, meeting week has snuck up on me. On a recent Wednesday (September 23rd) the Colorado Springs railroad community gathered to see an old friend off on a new journey. The Denver & Rio Grande locomotive 168 from Antlers Park departed for Antonito, Colorado, to be rebuilt to run on the Cumbres & Toltec Scenic Railroad. We all look forward to seeing and experiencing her in action again. Then a pretty good group of PPDers spent a Saturday morning (September 26th) taking in Mike Maline's train set at Fort Carson. Thanks to Mike and his crew for the tour.

The fire closest to our foot is the Division swap meet on October 17th. This is a one day show at the church off Uintah Street [see flier in the Inserts Section]. We expect to setup the layout on Friday evening before the show at 6:30 PM according to the last meeting. The Saturday show is open to the public from 9:00 AM to 3:00 PM. We will tear down immediately after. The space allows a 32' maximum length of an oval layout. The following folks have agreed to bring modules: Marchbanks-12', Costa-12', Vade Bon Couer-4', Patterson-8', and Buco-12'. I'll plan to have a sign up sheet for running trains with DC or DCC at the meeting. You don't have to have a module to run trains. Even with this small layout, we welcome help for the setup.

Following that, the PPD will have a small dog bone layout at the Slim Rail's two-day show in Woodland Park, November 7th & 8th [see advertisement in the Inserts Section]. Andy Buco and Joe Costa will provide modules between the ends. Again, extra help and support are welcome and expected. Try to get your "kitchen pass" for at least one of the days. We'll work out the details for this setup as we get more info. Let me know if you would like to run trains.

And heads up for the three day TECO show 4-5-6 December. This show is open on Friday evening as well as Saturday and Sunday. We will still plan to setup a boomerang layout on Friday.

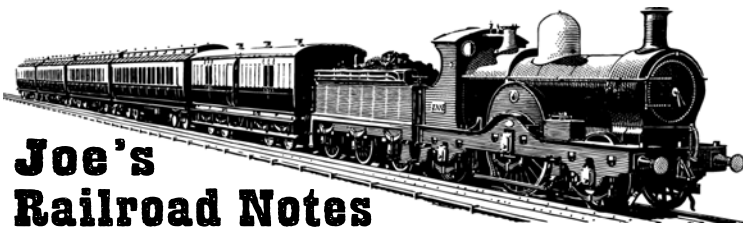

See you Friday evening. Make sure to tell your friends about the Division swap meet.

Here are some photos I took of 168 and at the Fort Carson Army Base Railroad.

## Work Train South Of Van Briggle Pottery

Back in July, I saw a Herzog work train with a traveling crane on it (known as a slot train) over near the old Van Briggle Pottery shops in Colorado Springs (near Uintah/I-25). There are hinged rail sections between the railcars. The lighting is not the best because we were shooting into the sunlight. Below are some of the photographs I snapped.

I found some YouTube videos on the Internet of this train as well. Click this [link](#) for a video of this train. The sidebar for this video should have other Herzog train video links as well.

## Fort Carson Army Base Railroad Engine Test

It's kind of cool being the one on the engine waving at the pedestrians. The photograph below is shot from my video. I wasn't ambitious enough to hold on to the rail while taking the video with my camera to switch to taking snapshots. This is the bridge over Fountain Creek and Fountain Creek Trail.

## Riding Illinois Central's City Of New Orleans In Colorado

I haven't been to Alamosa, Colorado since the depot was renovated. The old building where I had bought tickets on my last ride on the Rio Grande Scenic Railroad (a subsidiary of the San Luis & Rio Grande Railroad) is now the office for Habitat for Humanity.

We were very surprised that we would be riding on the old Illinois Central Railroad's *City Of New Orleans* passenger railcars. This was a train Kristin used to ride back in Chicago.

A pair of GP-40s pulled a long train up to Fir, Colorado for a Beatles tribute concert. The excursion train that went to La Veta, Colorado was only a couple of passenger cars. Despite a few rain-drops, the weather was perfect. Fir has its own weather station.

## WHERE AM I?

*By Jeff Cahill*

Hello Pikes Peak Division! Jean and I took a short anniversary staycation last month and I wanted to share a couple photos from our trip. Can you guess where we are? No zooming! The lucky winners (know-it-alls) will be overflowing with satisfaction that they are very knowledgeable in Colorado railroading!

# MURDOCK'S SIDING

By Michael Murdock, Editor of *The Milepost*.

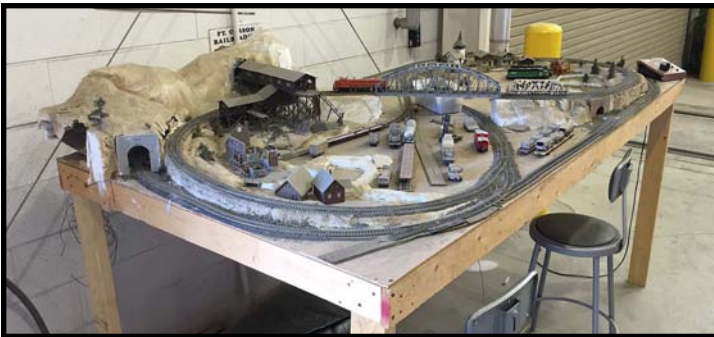

I hope everyone who attended the engine house and rail yard tour of the Fort Carson Army Base Railroad had fun. With the heightened security because of terrorism, events like this, in my opinion, are in the category of being once-in-a-lifetime. Special thanks to Mike Maline and his staff for taking time organizing and presenting this event — it was a lot of fun. The Army has a great railroad asset down there at Fort Carson. I included some of the photographs I snapped at this event — other photographs from the event are in other columns in this newsletter.

A GP-10 locomotive, USAX-4611, ready for work at Fort Carson.

On Page #7 and #8, we are starting a new column for Joe Costa. Joe hands in also sorts of tidbits and goodies on railroad events and news that he and Kristin see on their travels. I hope everyone enjoys the articles he presents.

*Michael*

Real engine houses have a model railroad layout in them!

While nobody was watching, Wade took one of the GP units out for a spin down to Pueblo and back! (Just kidding!)

**The pikemasters model railroad club is a group of hobbyists dedicated to representing American railroad history using 1:87 "ho" scale-model trains**

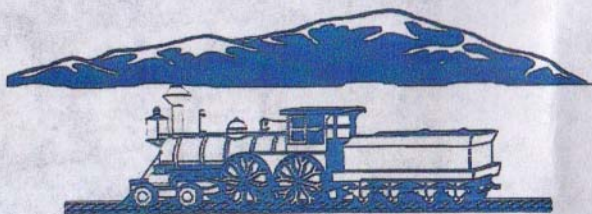

**Our layout encompasses 25x90 feet of space in the basement of the Colorado Springs city auditorium. We occupy the former CSPD pistol range on the western side of the basement. The layout features both standard gauge HO models and HO<sub>n3</sub> narrow gauge models that represent the 3 foot narrow gauge railroads that were common in Colorado during the late 19th century. Our layout uses both analog DC control, and Digital DCC control, with engines that have onboard processors that only respond to instructions sent directly to them.**

**In addition to our open houses, we have club meetings every Thursday night at 7pm. visitors are welcome to come to the auditorium on Thursday nights to view the layout.**

# PIKES PEAK "N" GINEERS

## MODEL RAILROAD CLUB

### WHAT WE DO:

**WE HAVE FUN:** The club has two layouts, a permanent one in the club house and a traveling one, which the club takes to several functions each year. Members may operate their trains on both layouts.

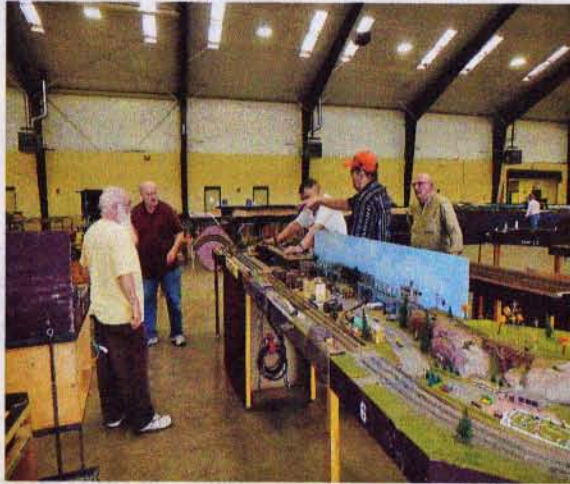

We plan one or two train trips each year as well as field trips to museums, historic sites, home layout tours and parties and picnics.

25<sup>th</sup> ANNIVERSARY DINNER

**EDUCATION:** Members are educated in construction of layouts, scenery and buildings by the more experienced members. This is accomplished by hands on experience and formal workshops. Participation in trade shows and other events also enhance members' education.

GARDEN CITY KS SHOW

#### WHO WE ARE:

**PURPOSES & OBJECTIVES:** The purposes and objectives of the Club are as follows:

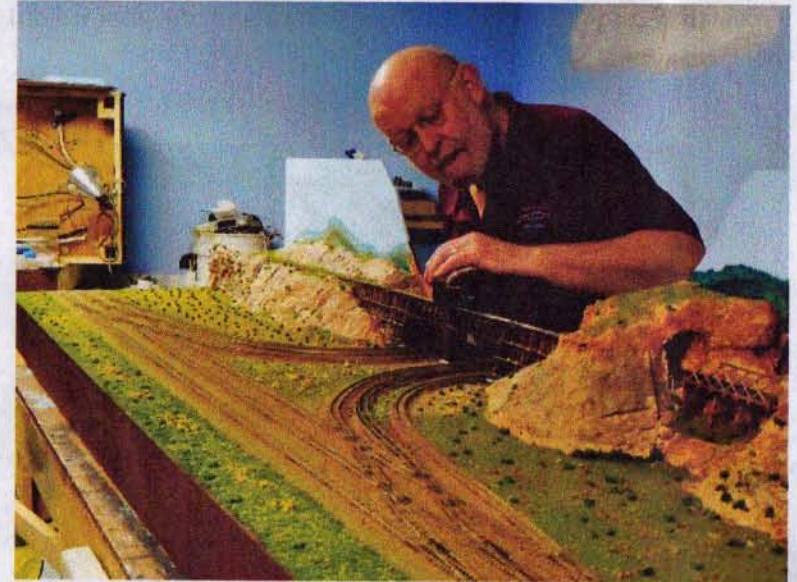

1. To provide a meeting place for interested model railroaders;
2. To help fellow members develop and improve their modeling skills;
3. To foster interest in the hobby of model railroading through fellowship in the club, and through support of appropriate community programs;
4. To give members the opportunity to construct and operate N scale layouts for club and public display.

**HISTORY OF THE CLUB:** The club was founded October 13, 1989 by a group of model railroaders interested in having a place to build and operate a club-sized layout.

**THEME OF CLUB:** The theme of the club is any scene real or imaginary within 200 miles from the Springs area. All modules are a work in progress as we keep adding to the scenery and making repairs as needed.

**N TRAK STANDARD:** The club uses the N TRAK Modular Standards which includes a 4<sup>th</sup> line. By following the standards a member's module may be used in any similar club layout anywhere in the world.

**TYPES OF MEETINGS:** The club holds a Board Meeting on the first Monday of the month and is open to all club members. The Club Business Meeting is held in the club room on the third Friday of the month at 7 PM . We welcome all guests.

REBUILDING A MODULE FOR THE MTL

**MEMBERSHIP REQUIREMENTS:** Membership is open to any person interested in "N" scale model railroading.

#### CATEGORIES OF MEMBERS:

1. **Regular:** Regular members must be 18 years of age and have completed a probationary period.
2. **Junior:** Junior membership is open to anyone from 12 to 17 years of age that has an adult sponsor.
3. **Family:** Family membership is open to parents and children.
4. **Senior:** Senior members must be at least 65.
5. **Affiliate:** Affiliate members stay in contact with the club via the news letter.

## MEMBERSHIP DUES:

1. **Regular Membership:** \$20.00 per month
2. **Family Membership:** \$30.00 per month
3. **Junior & Senior membership:** \$10.00 per month
4. **Affiliate Dues:** \$16.00 per year

**CLUB DAYS & HOURS:** The club is open on Tuesday and Friday nights from 7 to 9 pm and Saturday 9 to 11 am. Come visit us and see what we do!  
The club is located at 38 Sierra Madre in the old D&RG Depot.
